9:45 a.m.	Range Evaluation Contest Begins
1:30 p.m.	Awards ( <i>approximately</i> )

## ABOUT THIS CONTEST

The **Range & Pasture ID Contest** will help members learn to identify all the 74 native and introduced grasses which are listed on the Master Plant List for 4-H. The grasses in the grass contest are important for their value in making decisions about the Texas forage resources, their health, and help to determine the change that has occurred on our land base in Texas. Members will also learn how plants grow, grazing impacts on land, grass and plant identification and examination.

The **Range Evaluation Contest** is the next step after you have learned the grass and plant types! This 4-H contest concentrates on making decisions about the rangeland resource including ecological site health determination, stocking rate, and the use of management tools to benefit the forage, soil, water, and livestock/wildlife resources. The key to success in this contest relies on your ability to identify plants and have knowledge of their ecological and economic value. The 4-H Range Evaluation Contest is conducted totally outdoors.

## CONTEST TYPE

**Invitational:** Counties may enter an unlimited number of teams and up to 2 individuals in the Range & Pasture ID/Range Evaluation contest in each age division.

- Texas 4-H State Roundup will host an Invitational Range & Pasture ID/Range Evaluation contest. All Senior 4-H teams/individuals may participate in the State Invitational contest.

## CONTEST STRUCTURE

**Team & Individual:** Range & Pasture ID/Range Evaluation teams must be comprised of 3-4 youth in the same age division *\*unless they are a Junior contestant moving up to Intermediate Team*. This contest also allows individual competitors. \*Please note that only two individuals per age division will be allowed at District. If you have three individuals, they will be required to combine into a team to compete at District.
